

Intranet Migration Project

INTERNAL WORKSHOPS

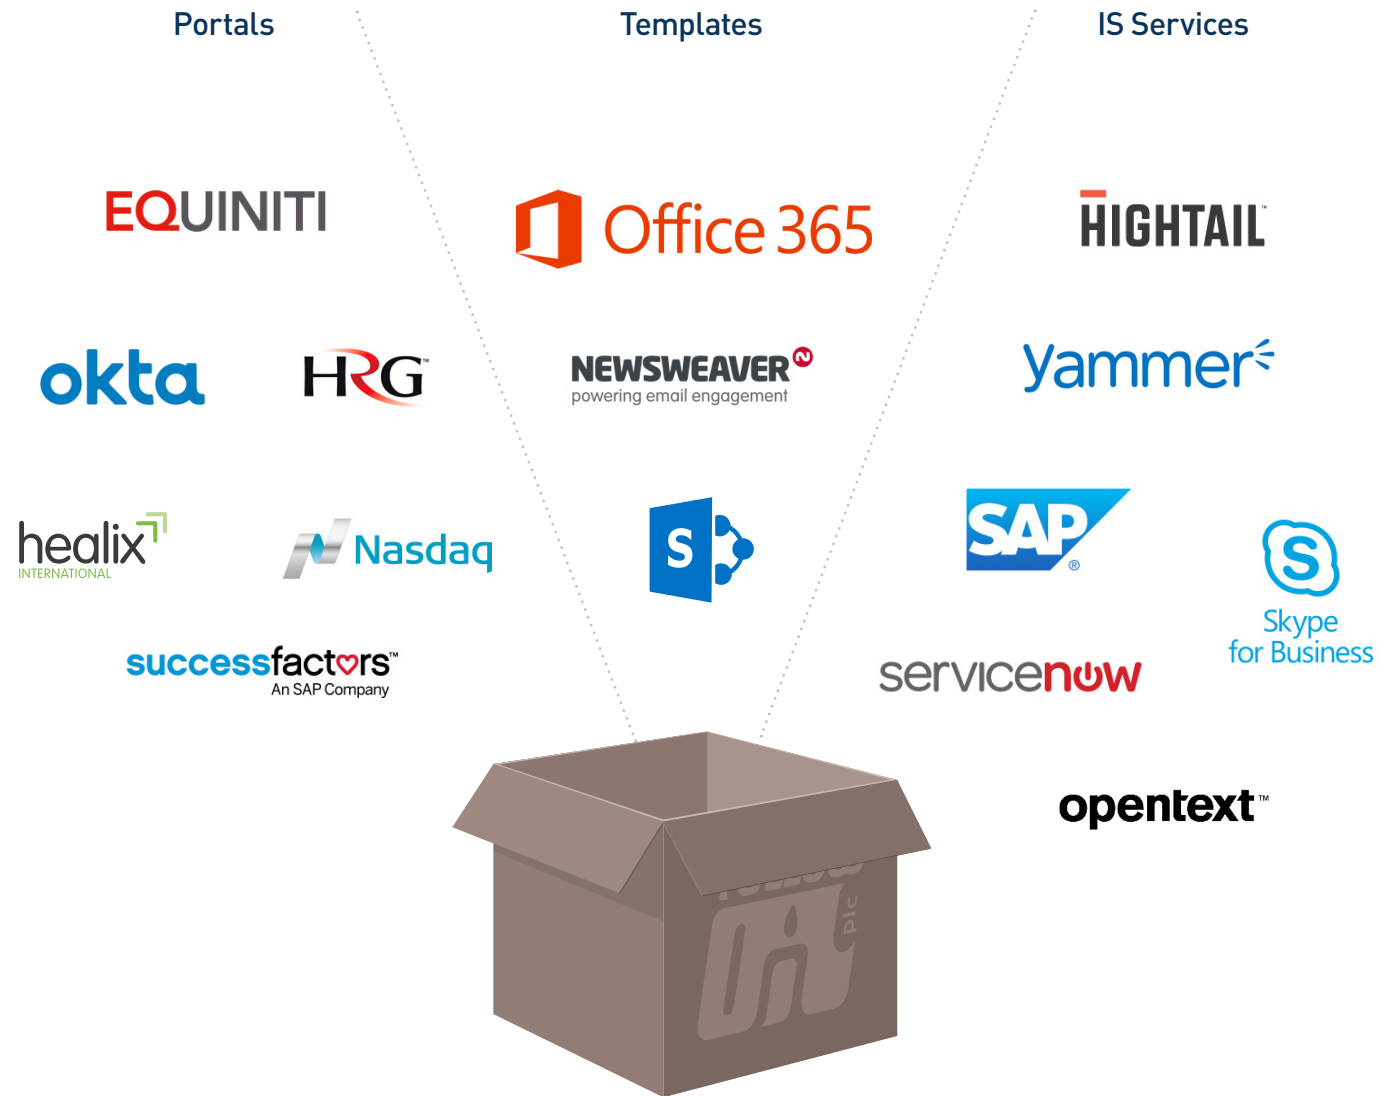

MARCH 2018

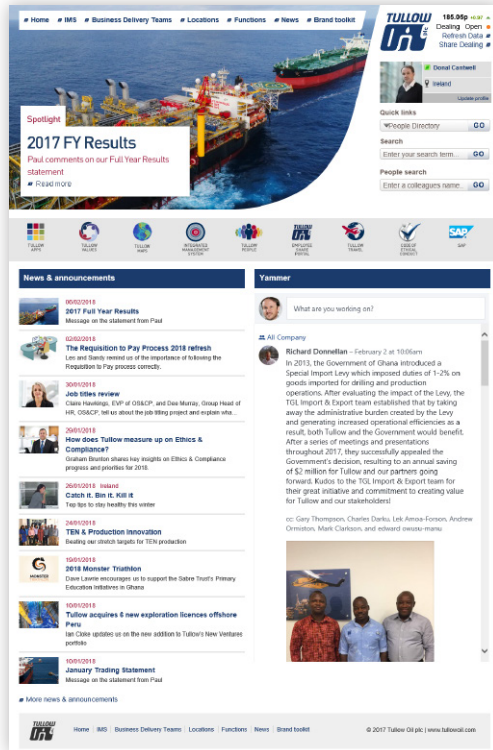

INTRANET MIGRATION PROJECT

WHERE WE ARE TODAY

- News-focused site
- One-way top-down communication
- Content-heavy intranet
- Clunky from a user perspective
- Productivity tools not integrated in the user experience

INTRANET MIGRATION PROJECT LONG-TERM ASPIRATIONS

NOW

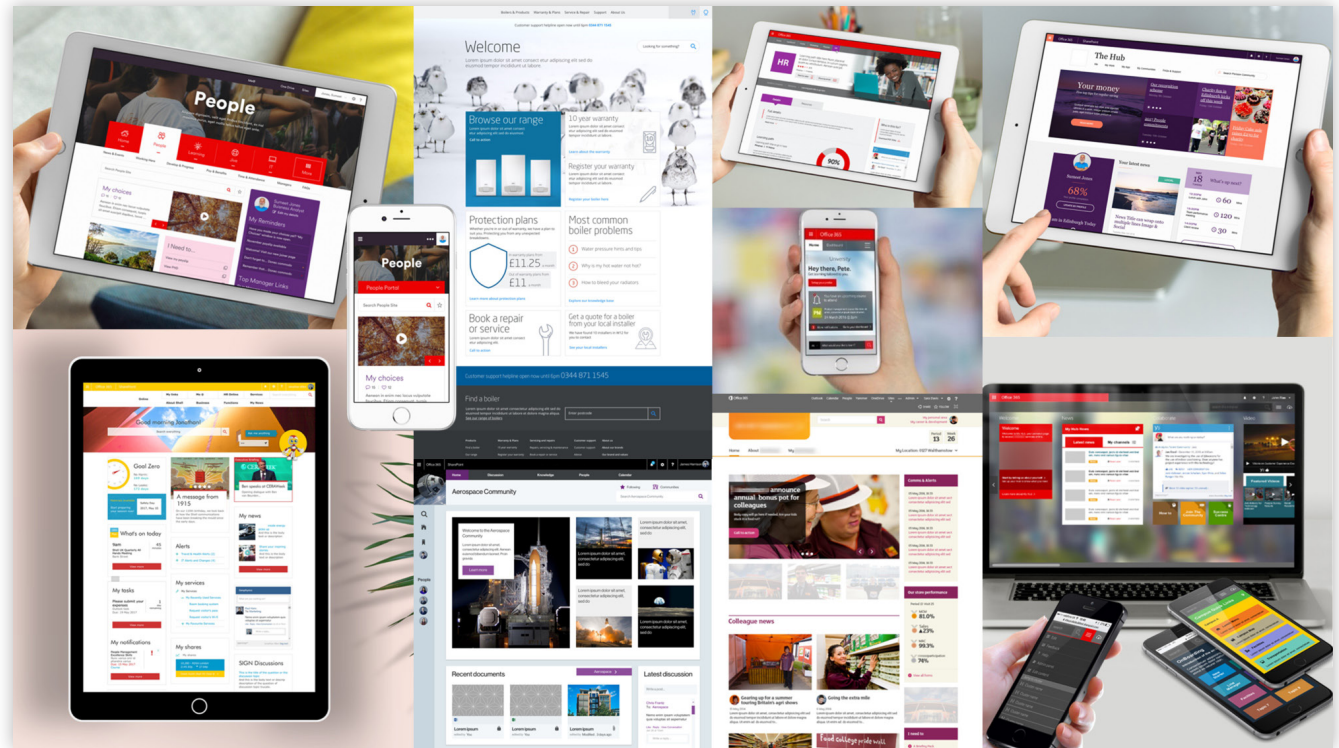

Sharepoint 2010

No longer fit for purpose

Will be soon technically unsupported

Not supported on mobiles or tablets

Content-heavy site

2018 REFRESH & BEYOND

Sharepoint Online

Integrated with Office 365

Akumina framework enhances SharePoint Online with additional functionality

Responsive design for mobile optimisation

Platform for future intranet development and creation of personalised digital workplace

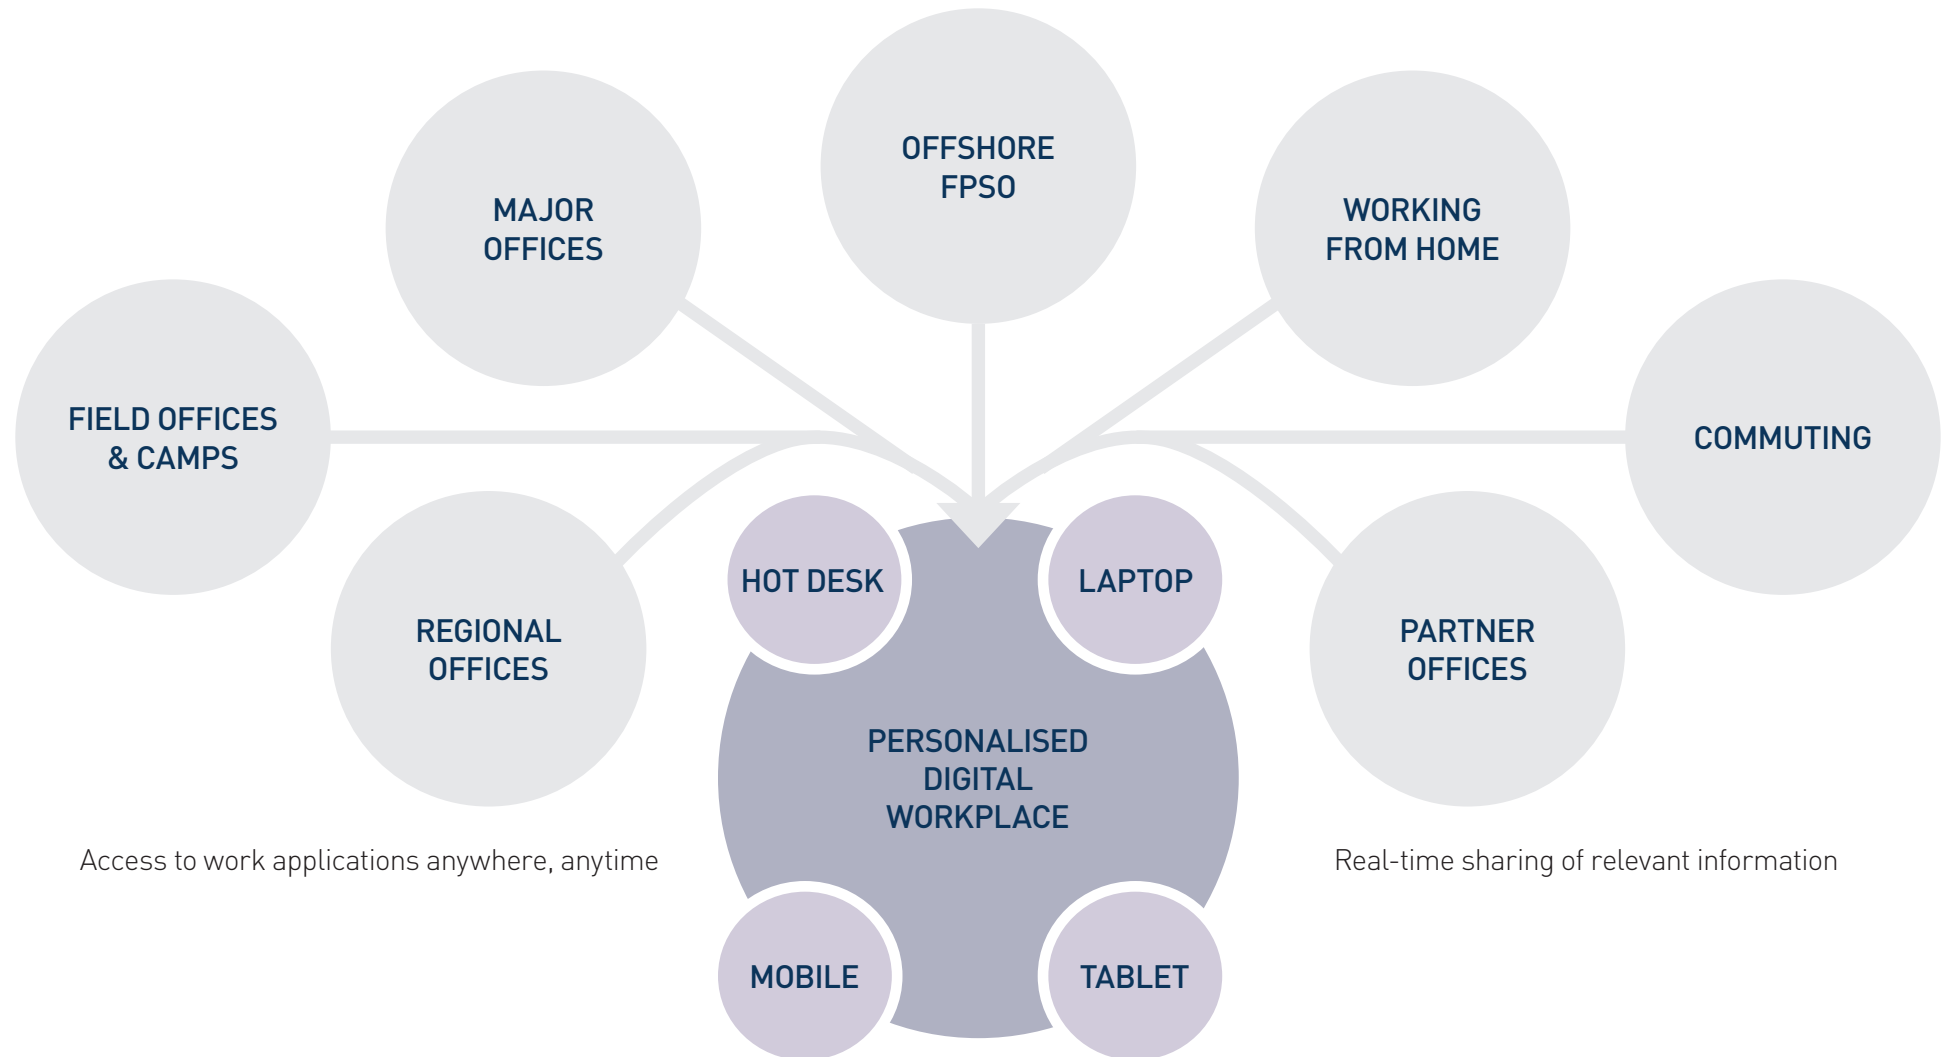

INTRANET MIGRATION PROJECT

THE DIGITAL JOURNEY

Where we are headed?

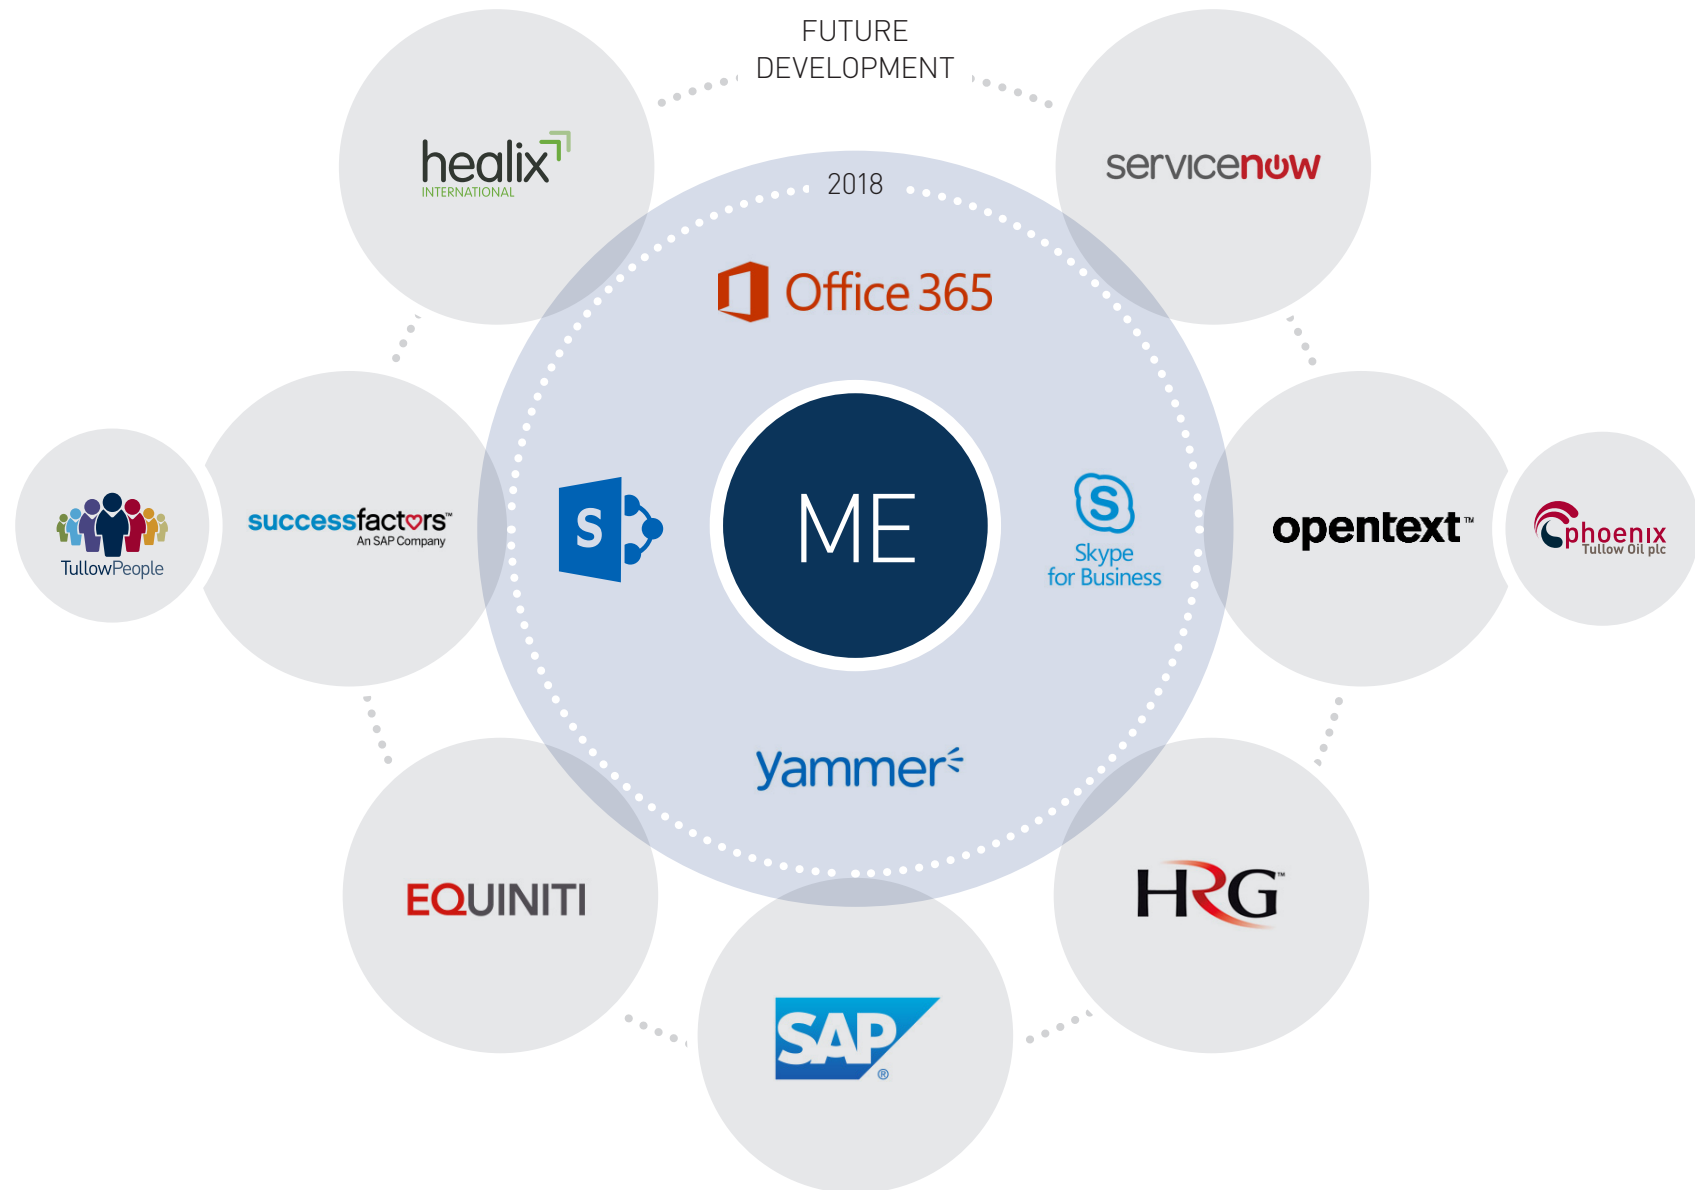

Fit-for-purpose digital hub to optimise personal productivity

Ability to collaborate from anywhere with anyone

INTRANET MIGRATION PROJECT

PERSONALISED DIGITAL WORKPLACE

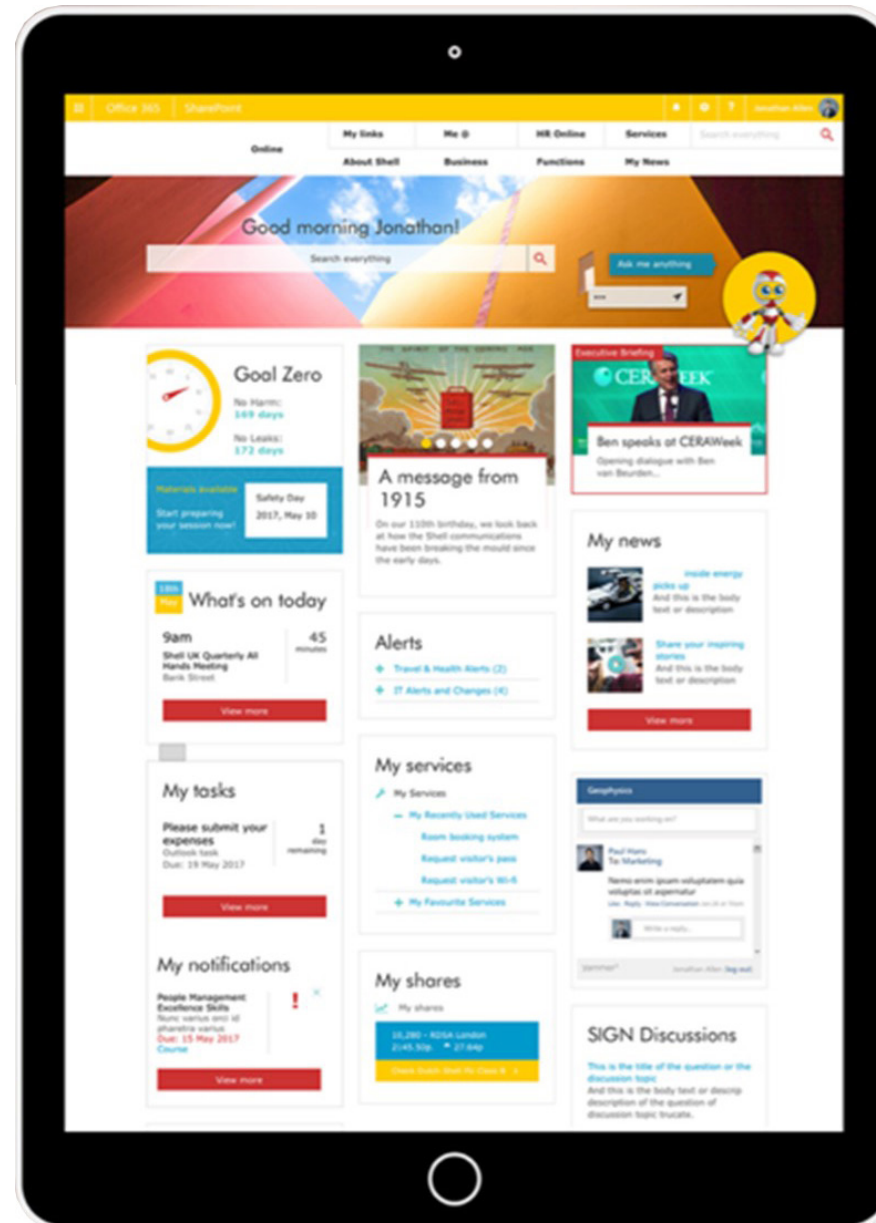

INTRANET MIGRATION PROJECT

FEATURES OF A PERSONALISED DIGITAL WORKPLACE

The intranet example opposite illustrates some of the features we aspire to in order to make the Tullow intranet in the future a personalised digital workplace:

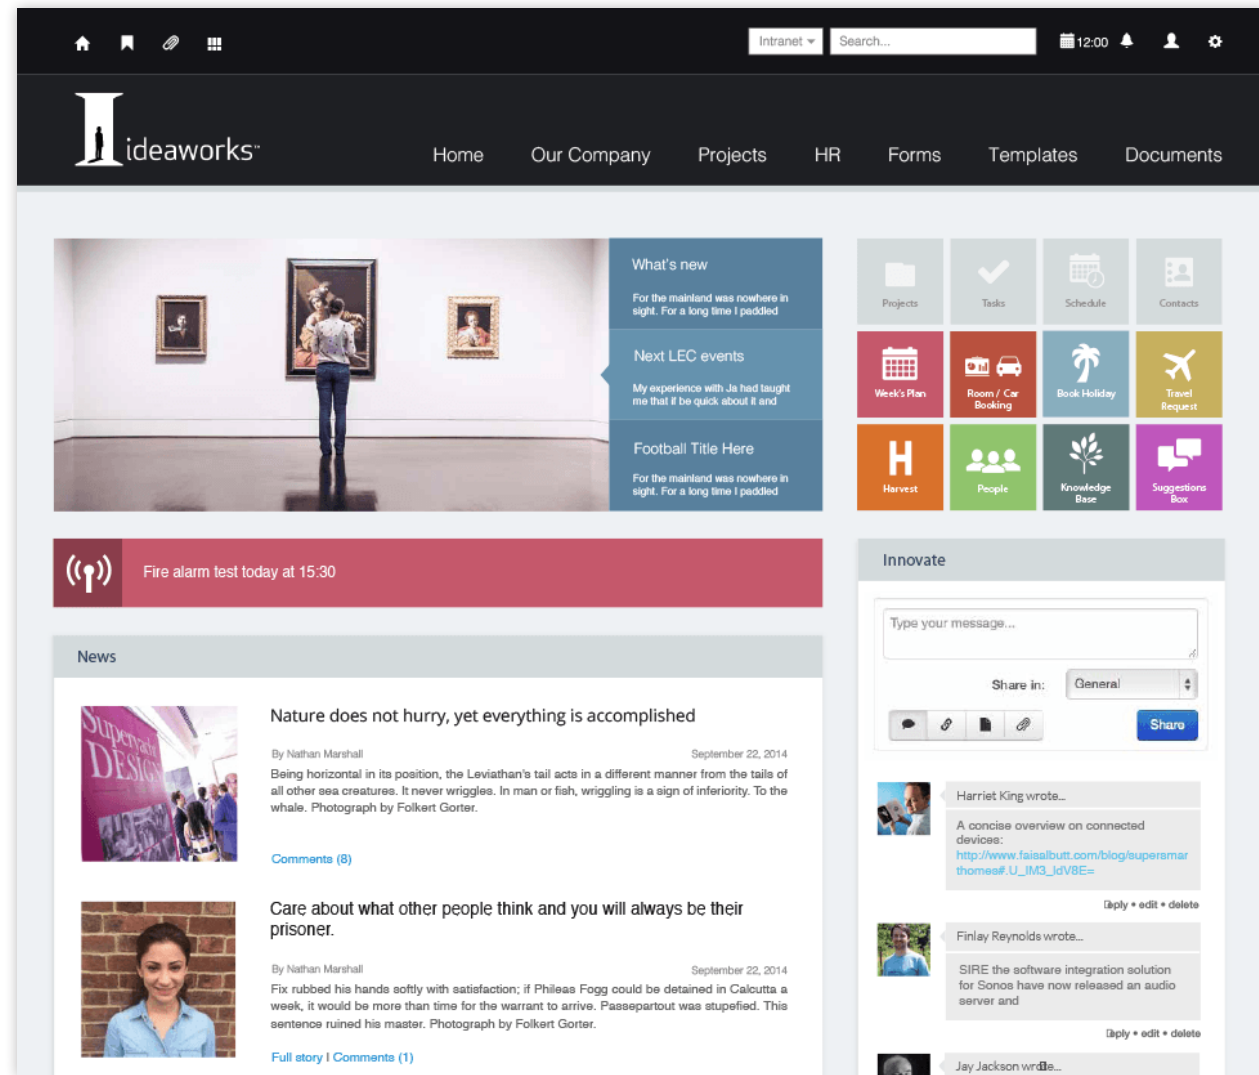

1. Personalised greeting
2. Integrating information from different calendars into a collated daily summary
3. Imminent tasks and deadlines
4. Notifications drawn from third-party applications - for example outstanding SAP approvals or Tullow People appraisals
5. Personalised share overview based on data from Equiniti
6. Executive Briefings separated from main news feed for longer traction
7. Personalised news feeds

INTRANET MIGRATION PROJECT

FEATURES OF A PERSONALISED DIGITAL WORKPLACE (CONT)

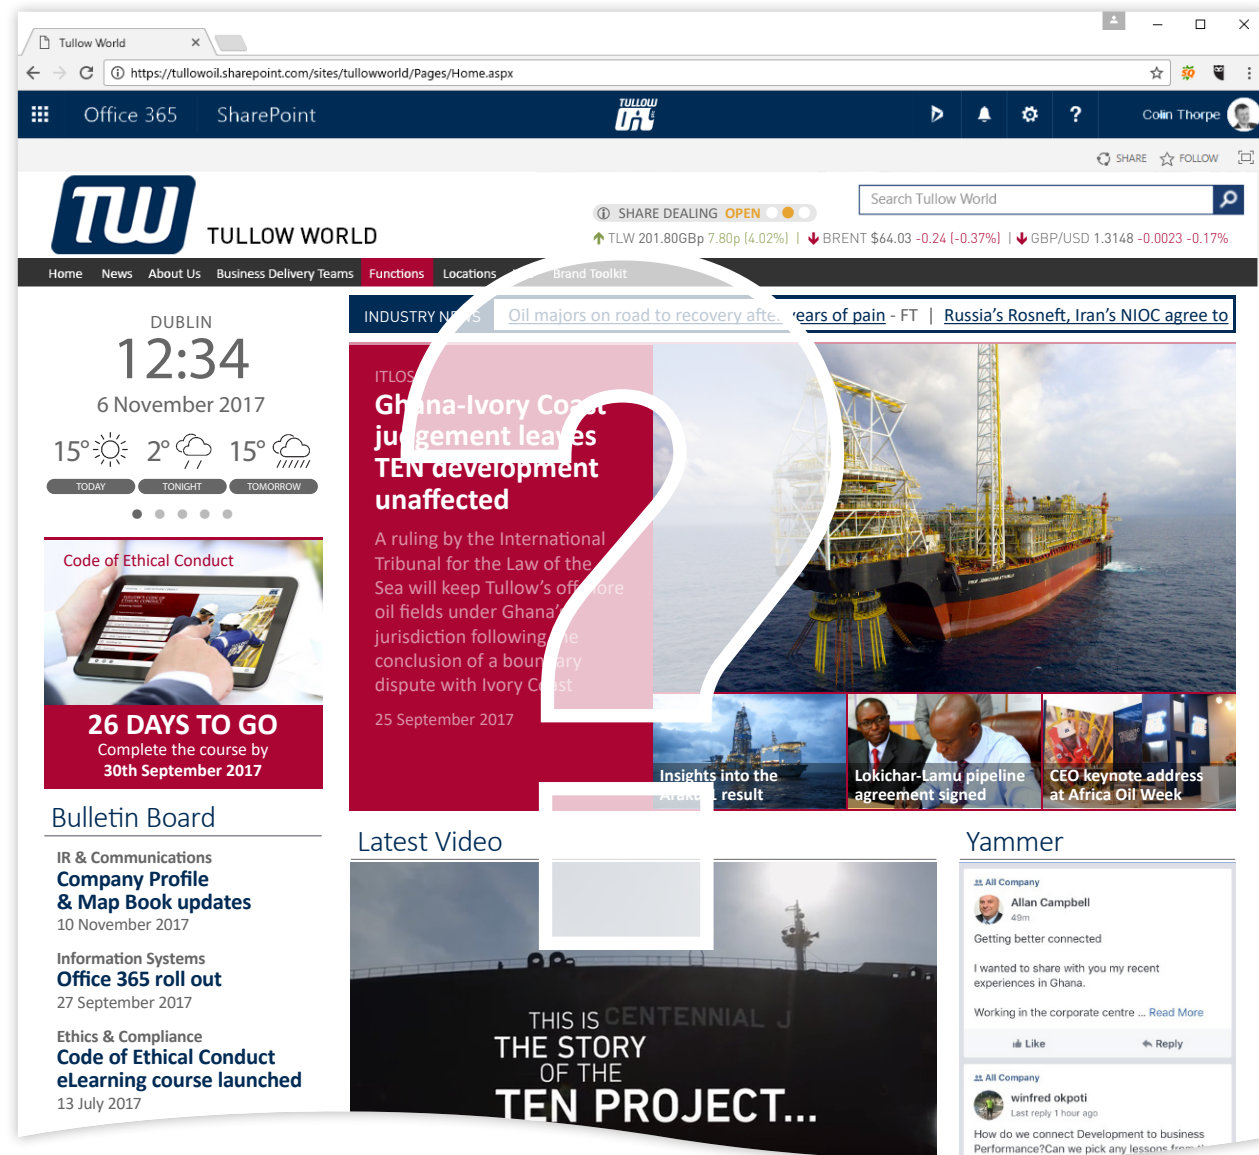

1. Location specific notifications in real time
2. Working internal productivity tools integrated into the homepage
3. Integrated posting capability to comment on news, raise a GSD ticket or post on Yammer

INTRANET MIGRATION PROJECT GOALS FOR 2018

The long-term aspirations outlined previously will be achieved in a phased approach. The main objectives for the current year are to:

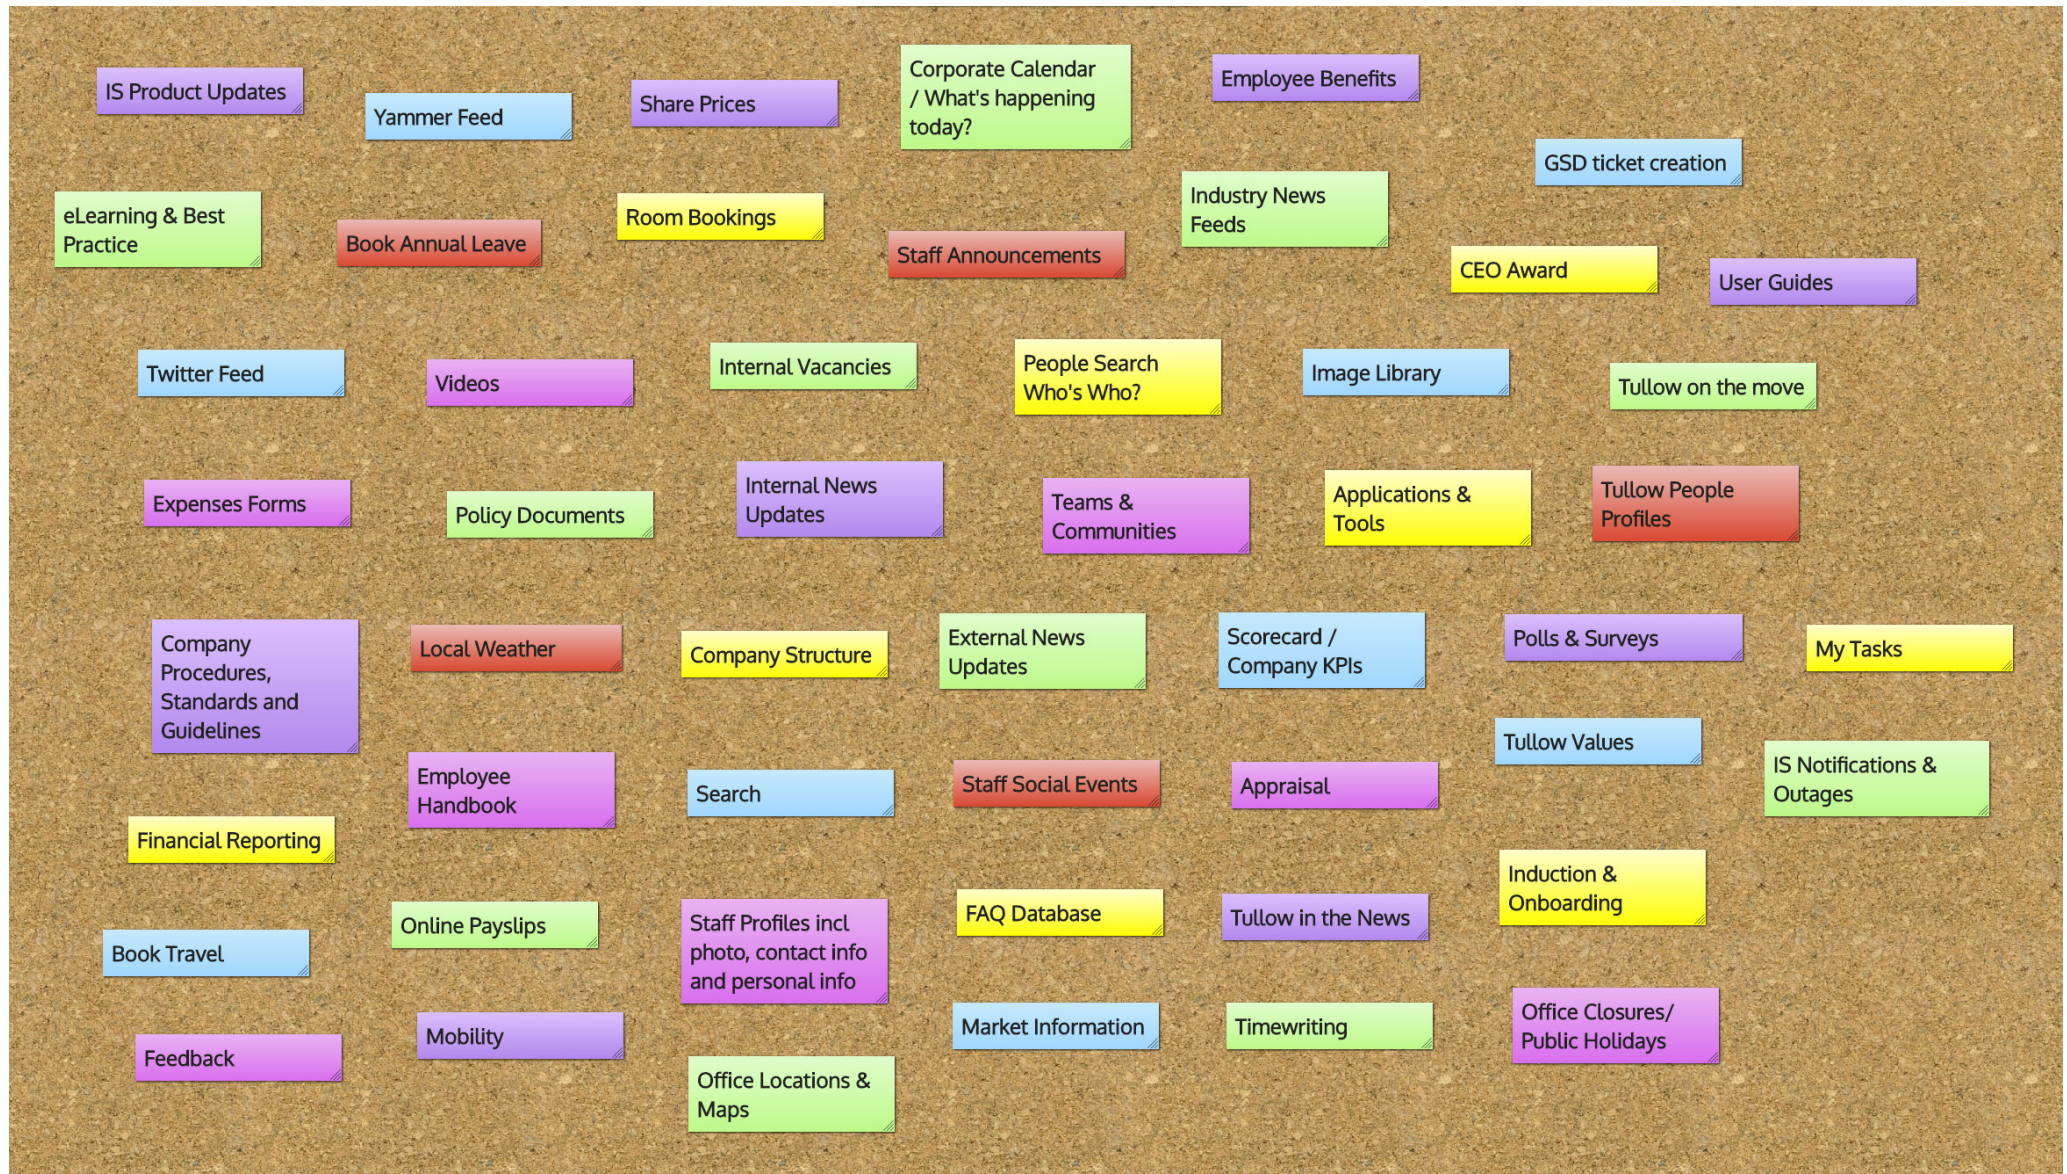

- Migrate the intranet to the SharePoint Online platform
- Intranet refresh (including rebranding) with added out of the box features
- Homepage redesign with broader focus beyond news
- “Lift and shift” of existing selected content to new platform
- Lay the foundations for the future digital journey

Possible revised intranet homepage
